

## Jump to it...District 5960 Membership Help is Here!

### All Rotary Club Leaders,

As leaders in District 5960, you know the value and importance of Rotary membership. You also know that in order to continue to positively impact our communities, Rotary clubs need to expand their reach by finding new members and maintaining the satisfaction of current members. By doing both, we will see our clubs grow and thrive. Here are some suggestions for your club from your District 5960 Membership Team.

### Attracting New Members-Things You Can Do

Start by going to <https://rotary5960.org/page/membership>. You will find many helpful resources, including help to,

- Assess your club
- Engage current members
- Connect with prospective members
- Follow membership leads
- Make new members feel welcome
- Develop your club

We are available to attend your club meeting to present on the range of options your club has to increase membership and/or to meet one on one with your club's leadership to assess the health of your club and help create a membership plan.

Please do not hesitate to contact us if you think we can help your club with membership growth.

Yours in Rotary Service,

District 5960 Membership Team
